Energy Assistance Programs

**Consumers Energy**

*Count on Us<sup>®</sup>*

There are a variety of programs and services that can assist during your energy efficiency journey. Continue reading to learn about available opportunities, eligibility and additional resources.

### Helping Neighbors Program (Energy Efficiency Assistance)

This program helps single-family, income-eligible Consumers Energy customers to reduce energy use and improve comfort in their home. It offers no-cost, direct services that include energy efficiency upgrades, home energy assessments and energy-saving education. The program also offers rebate incentives for energy efficiency measures installed by various nonprofit agencies for retrofit/weatherization projects.

### Multifamily Property Energy Efficiency

This program can help reduce the energy cost of your properties and find other ways to save money, starting with a free property assessment. Consumers Energy will offer to install some efficient upgrades for free, and recommend additional measures that can earn you valuable rebates.

### New Home Construction (Residential)

Designed to save energy and protect the environment, Consumers Energy's ENERGY STAR® New Home Construction rebate program helps builders and homeowners make the most of such an important investment. Implementing these energy-efficient building standards will help customers save money and improve comfort in their new home.

### New Commercial Construction

The best time to improve your building's efficiency is when it's still a blueprint. Whether you're an architect, a designer, a builder or a business owner, Consumers Energy will work with you in the design phase of your new construction project. Together, we'll review your plans and build in energy savings and rebates from the start—for a more efficient, cost-effective and productive work environment.

### Weatherization Assistance Program (WAP)

The Michigan WAP is a federally funded program providing free home energy conservation services to income-qualified Michigan homeowners and renters. These services reduce home energy use, lower utility bills and are provided through local Community Action Agencies.

Find your local agency at: [MCAC.MemberClicks.net/agency-locator-map](http://MCAC.MemberClicks.net/agency-locator-map)

### Michigan Department of Health and Human Services

The State Emergency Relief program offers assistance to correct unsafe conditions and restore essential services.

### Michigan 2-1-1

This is a free, confidential service that connects you with local community-based organizations across the state, offering thousands of different programs and services. Call 2-1-1 to reach a trained specialist day or night, 24/7.

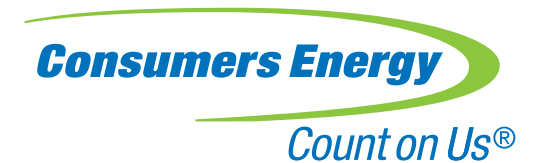

Dial: 2-1-1

### Payment Plans and Assistance

If you need help paying your energy bill, emergency and ongoing aid may be available to help you manage costs and meet other needs. Review the many assistance options from Consumers Energy, as you may be eligible for more than one program.
